

Hazardous Waste Rules and Proposed Rules
Federal Register, 1997: November

11/03/97 62 FR 59287-59290

Title: Project XL Site-Specific Rulemaking for Molex, Inc., 700 Mockingbird Road Facility, Lincoln, NE
Action: Direct final rule
Comment: The Agency is proposing to implement a project under the Project XL program for the Molex, Inc., facility in Lincoln, Nebraska. In addition, this rule proposes a site-specific rule for this facility to facilitate implementation of the project. This notice proposes a site-specific rule for this facility.

11/03/97 62 FR 59332-59334

Title: Project XL Site-Specific Rulemaking for Molex, Inc., 700 Kingbird Road Facility, Lincoln, Nebraska
Action: Proposed rule
Comment: EPA is proposing to implement a project under the Project XL program for the Molex, Inc. facility located in Lincoln, Nebraska. In addition, this rule proposes a site-specific rule for this facility to facilitate implementation of the project. This notice proposes a site-specific rule for this facility.

11/06/97 62 FR 60090

Title: Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition from Exemption-Class I Hazardous Waste Injection; CECOS International, Inc. (CECOS)
Action: Notice of final decision on petition modification
Comment: EPA is giving notice that a modification of the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to RCRA has been granted to CECOS for the Class I injection well at Sulphur, Louisiana. This final decision allows the underground injection by CECOS of the specific hazardous waste identified in the exemption modification for as long as the basis for granting an approval of this exemption remains valid under 40 CFR 148.24.

Hazardous Waste Rules and Proposed Rules
Federal Register, 1997: November (cont'd)

11/10/97 62 FR 60465-60467

Title: Land Disposal Restriction Phase IV: Second Supplemental Proposal on Treatment Standards for Metal Wastes and Mineral Processing Wastes, Mineral Processing and Bevill Exclusion Issues, and the Use of Hazardous Wastes as Fill; Notice of Data Availability

Action: Notice of Data Availability

Comment: EPA has received additional capacity information which will be used in determining the need for national capacity variances for the final Phase IV rule. National capacity variances extend the effective date of the LDR treatment standards for a period of time not to exceed two years for hazardous wastes for which there are insufficient treatment capacity on a nationwide basis. The Agency is making available to the public this new data concerning a two year national capacity variance for three wastes generated by FMC Corporation at its facility located in Pocatello, Idaho. Public comments are accepted within 15 days from the publication of this notice.

11/14/97 62 FR 61175-61178

Title: Michigan: Final Authorization of Revisions to State Hazardous Waste Management Program

Action: Notice of final determination on application of Michigan for final authorization

11/20/97 62 FR 62079-62094

Title: Joint NRC/EPA Guidance on Testing Requirements for Mixed Radioactive and Hazardous Waste

Action: Publication of Final Joint Guidance on the Testing Requirements for Mixed Waste

Comment: The Nuclear Regulatory Commission and the EPA are jointly publishing final guidance on testing requirements for mixed radioactive and hazardous (mixed) waste. The guidance emphasizes the use of process knowledge, whenever possible, to determine if a waste is hazardous as a way to avoid unnecessary exposure to radioactivity.

11/21/97 62 FR 62262-62266

Title: Alabama: Final Authorization of Revisions to State's Hazardous Waste Management Program

Action: Immediate final rule

11/24/97 62 FR 62521-62523

Title: Georgia: Final Authorization of State Hazardous Waste Management Program Revisions

Action: Immediate final rule

Hazardous Waste Rules and Proposed Rules
Federal Register, 1997: November (cont'd)

11/25/97 62 FR 62740

Title: Uniform Hazardous Waste Manifest: Notice of Public Meeting
Action: Notice of public meeting
Comment: EPA will hold public meetings on December 11, 1997, and January 8, 1998, to make information available on a project underway to revise the RCRA regulations governing hazardous waste transportation.

11/28/97 62 FR 63322

Title: National Advisory Committee for Acute Exposure Guideline Levels for Hazardous Substances; Notice of Public Meeting
Action: Notice
Comment: The National Advisory Committee for Acute Exposure Guideline Levels for Hazardous Substances (NAC/AEGL Committee) will hold a meeting in December in Washington, D.C., to address the various aspects of the acute toxicity and the development of Acute Exposure Guideline Levels (AEGLs) for specified chemicals.

11/28/97 62 FR 63329-63330

Title: Agency Information Collection Activities: Proposed Collection; Comment Request; Information Collection Request Number 1597.02: Universal Waste Handlers and Destination Facilities, Reporting and Recordkeeping Requirements
Action: Notice
Comment: EPA is announcing that it plans to submit the following information collection request to OMB: Universal Waste Handlers and Destination Facilities Reporting and Recordkeeping Requirements, EPA ICR Number 1597.02, OMB Control Number 2050-0145, current expiration date 5/31/98. Before submitting the ICR to OMB, the Agency is soliciting comments on specific aspects of the proposed information collection.
